MARK OF ESTEEM

THREE AEROPLANES DROP FLOWERS ON BIER OF GALLANT AVIATOR

To do signal honor to a brave aviator who gave his life for his country, Major Yount sent three aeroplanes from March Field at Riverside to the funeral of Lieutenant Meyer on Monday afternoon.

The great planes attended the funeral procession, flying low and dropping flowers on the bier of the soldier boy. Some of the blossoms fell by the wayside and were picked up by wondering little children on their way home from school. As the cortege entered the cemetery, the aviators hovered lower still, almost touching the treetops. When they had dropped the last flower on the casket as it rested near the grave, they winged their way back to Riverside.

The firing squad that gave the salute at the grave was sent by the government from Arcadia.

Mr. and Mrs. A. P. Offutt and son Jack of 355 West Broadway are motoring to Bakersfield to spend the Thanksgiving holidays with Mrs. Offutt's mother.

FINE INSTRUMENTS

WONDERFUL DISPLAY OF SAXAPHONES AT GLENDALE PHONOGRAPH AND PIANO STORE

A very interesting and extraordinary collection of musical instruments is on display in the windows of the Glendale Phonograph & Piano Co. These instruments are the property of Mr. and Mrs. Wells, 462 Burchett street, Glendale, who are members of the world-famous Opollo saxaphone quartette which tours the entire world. Mr. and Mrs. Wells are also connected with the Chautauqua circuit. This quartet of saxaphones is, according to the statement of the Buecher Saxaphone Manufacturing Co., the finest and most costly set of quartet instruments ever constructed. They are a wonderful example of artistic construction, being gold-plated and inlaid with pearls. Tests have been made to show that they have the truest tone possible to obtain.

They are not for sale and have been placed on display so that the people of Glendale may have an opportunity to inspect these instruments which have been so courteously loaned to the Glendale Phonograph & Piano Co. by Mr. and Mrs. Wells.

A WORTHWHILE ORGANIZATION

AN EVENING NEWS REPRESENTATIVE ATTENDS AN INTERESTING MEETING OF

THE LEADING CLUB

OF THE WOMEN OF GLENDALE—TUESDAY AFTERNOON CLUB; LARGE ATTENDANCE

Nearly every seat in the large assembly room of the Masonic Temple was taken yesterday afternoon when the meeting of the Tuesday Afternoon club was called to order by the president, Mrs. Charles E. Hutchinson, for one of the most interesting and profitable sessions of the club year.

Vice-President Mrs. Charles H. Temple, chairman of the ways and means committee, commended the enthusiasm displayed in the work for the coming bazaar, and emphasized the necessity for continued effort. She asked that every member donate as much as she could, not only to the section in which she was especially interested, but also to other sections, if possible.

General Curator Mrs. A. W. Tower announced the coming meetings of the different sections.

Mrs. Leroy Bosserman, chairman of philanthropy, told of a visit to the four institutions in which the club is interested and pictured in vivid manner their urgent needs. These institutions are the Children's Hospital, the Florence Crittenden home, the Maternity Home and the County Hospital, all of them in Los Angeles.

Mrs. Coleman, district chairman of philanthropy, spoke on the same subject, but emphasized the Christmas need, especially at the county farm, the county hospital and the relief work in the homes, which is carried out by special investigators, all of whom are women. Mrs. Coleman also made an appeal for Christmas cheer for the children in Juvenile Hall and the 36 girls at El Retiro, who were more sinned against than sinning, and who are all mak-

Full of Pep

"Enthusiastic and full of pep," was the way the members of the Church of the Holy Family characterized the meeting held at the rectory last evening to formulate plans for the building of the new church and to complete arrangements for the bazaar to be held December 11, 12 and 13, from which the ladies in charge hope to see a substantial addition to the building fund .

An encouraging and inspiring feature of the meeting was the number of men present. Equally hopeful was the interest they showed in plans for developing ways and means.

The meeting was presided over by the pastor, Reverend Father James S. O'Neill, whose zeal and self-sacrificing devotion to his people and their needs has found ready response in their hearts.

PAVING BRAND

ANOTHER MASS MEETING WILL DISCUSS IMPROVEMENTS ON BOULEVARD

An enthusiastic meeting in which property owners on Brand boulevard participated was held at the city hall on the evening of the 13th of October to discuss the paving of Brand and the lowering of the Pacific Electric tracks from Colorado street south to the limits of the former city of Tropico. Those present at the meeting favored the paving of Brand, lowering the tracks and paving the right of way wherever this has not already been done between the Southern Pacific tracks and Mountain street.

It was decided to call another meeting for the purpose of considering this matter and inviting all those interested in the welfare of the city to be present and participate in the meeting.

This meeting has been called for Friday evening of this week at 7:45 at the city hall. Not only are Brand boulevard property owners expected to be present, but it is hoped that the citizens in general will come and take part in the discussions. Estimates of the cost of the work will be given and City Attorney Evans will explain the legal procedure necessary to accomplish this work.

FINE PROGRAM FOR TOMORROW

UNION SERVICE AT FIRST M. E. CHURCH AT 10 O'CLOCK, NOT HALF PAST TEN

SERMON AND MUSIC

OF UNUSUAL INTEREST, TO BE GIVEN BY FINE TALENT

The union Thanksgiving service to be held in the Methodist church will begin at 10 o'clock tomorrow instead of 10:30, as erroneously announced in some places. It will be a "States" meeting as to sittings. A section will also be reserved for those born under the British flag.

The ushers of the Methodist church will attend to the seating of the people. The largest Thanksgiving service ever held in Glendale is anticipated. Rev. V. Hunter Brink, D. D., of the Central Methodist church, will preach the sermon, Rev. Calderwood of the Congregational church will offer the prayer. Rev. O. P. Rider will read the president's proclamation, and the other ministers of the city will also participate. The music will be furnished by the First Christian church choir, with Mrs. H. W. Randall at the organ. The Thanksgiving offering will be for the Near East relief work.

GOOD BEING DONE

THE ACTIVITIES OF THE M. E. CHURCH ALLUDED TO IN A SERMON BY REV. CRIST

At the First Methodist church last Sunday Dr. C. M. Crist, the pastor, preached a very forceful and effective sermon for the Woman's Home Missionary society of the church, the occasion being the annual thank offering service. Dr. Crist took as his theme "Opportunity, the Measure of Obligation." As a result financially, the greatest thank offering ever received was taken, amounting to almost $700. Rev. Crist said in part:

"Something is wrong with the world commercially and economically when in the United States, according to government experts, the over supply of foodstuffs is valued at over $2,000,000 and at the same time millions of women and children are starving in Europe.

"It is just as uncontrovertibly true that something is wrong with a so-called Christian civilization that announces to the world its causes for thanksgiving and at the same time does not minister to the thousand million who have not the Gospel.

"The fact that America can supply the need of food in Europe obligates her to do so. The fact that the church of Jesus Christ can supply what is lacking in heathenism places her under the greatest obligation of meeting that need. Opportunity is the measure of obligation.

"John Wesley gave the battle cry of Methodism when he said 'the

Wild Duck Dinner

Mr. and Mrs. F. H. Mellus of 355 West Lexington drive entertained a number of friends at a "stag" party last evening. The guests were Pete Cunningham, Dan Cunningham, Harry Jackson, Walter Jackson, Hunter Graham, Hiene Pfirrmann, all of Los Angeles, and "Duke" Claussenius of Glendale. Table decorations of marigolds and corn flowers were used. 'Tis said that fifteen wild ducks were consumed. The evening was pronounced a great success by all present.

MISS YALE

ONLY WOMAN C. OF C. SECRETARY IN SOUTHERN CALIFORNIA

Miss Grace G. Yale, secretary of the Santa Monica Beach association and former secretary of the Santa Monica-Ocean Beach Chamber of Commerce, visited Glendale Tuesday in company with some cousins from the east who are looking for a location.

Miss Yale claims the distinction of being the only woman secretary of a chamber of commerce in Southern California doing organization work. She is very much interested in her work and is active in promoting the interests of the beach city.

COMPETE FOR S. C. HONORS

GLENDALE, WINNER IN CENTRAL LEAGUE, TO PLAY CITRUS CHAMPIONS

POMONA UNBEATEN

HOME TEAM HAS CHANCE TO WIN GAME IN PLAYOFF FOR CHAMPIONSHIP

The first game in the play-off for the Southern California championship will be between Glendale and Pomona high schools Friday afternoon on the Pomona college grounds at Claremont. Pomona has won the pennant in the Citrus Belt League and Glendale has won in the Central League. Very little is known concerning the Pomona team, excepting that they have not been defeated this year. It is not known whether it is because they are a particularly strong team or if the Citrus League is weaker than usual this year. Both reports have been in circulation. It is known that the Pomona team is fast and has more experience than the Glendale. They are good on forward passes and end runs. Glendale will probably have to depend on straight football for their gains.

The officials for the game are: Referee, Badenoch of Inglewood High school; umpire, Schott of Pomona college; head linesman, Walter Wilson of Pasadena.

The Central League, of which Glendale is a member, is composed of seven teams: Franklin, Citrus, Monrovia, South Pasadena, Covina, Alhambra and Glendale.

Glendale has been playing football for only three years. The first year they won the pennant; last year tied for second place; and this, the third year, have again won the pennant, all of this in spite of the fact that they have had practically a new team every year.

This league is one of the most closely contested in Southern California. The only game Glendale has lost was to Franklin, on the home grounds on Armistice Day. The team came back and won from Monrovia in spite of this defeat, and, because Citrus had lost one game and in addition had been tied in another, the Glendale team has clear title.

It is expected that a record crowd will be in attendance at the game, for it is known all over Southern California that Pomona is an enthusiastic football town, and always supports their team.

The Glendale line-up for the game will be as follows:

L. E.—William Farner.
R. G.—Roy Weetman.
C.—Bernard Dennison (Captain).
L. G.—Atwood Dutcher.
R. T.—Deleon Anthony.
R. E.—Warren Meeker.
Q. B.—Frank McGillis.
L. H.—Harold Alexander.
R. H.—Floyd Herman.
F. B.—Burney Chandler.

Substitutes:

Center—Robert White, James Hill.
Ends—Joe Rhodes, James Stewart.
Tackles—Kenneth Jackson, Hugh Butters, Robert Stone.
Guards—George Stanley, Gordon Bartow.
Quarter Back — Tom McNary, Fred Terzo.
Back Field—Arthur Campbell, James Sherwood, Robert McCourt, Chester Green, Cecil Wilson and Philip Begue.

Santa Ana and Fullerton play off a tie game to determine the championship of the Orange County League this afternoon. The winner of that game will meet Santa Monica, winner of the Bay League. The winner of that game will, in all probability, play the winner of the Pomona-Glendale game to determine who will meet Long Beach for the championship of Southern California.

LEWIS M'GEE

GLENDALE BOY ON HIS WAY HOME FROM THE FAR EAST

Lewis W. McGee, son of Mr. and Mrs. R. M. McGee, 614 East Broadway, who has been serving in the United States Navy for the past seven years, sailed from Constantinople November second for home. He is chief radio electrician and has the rank of chief petty officer. It is expected that he will arrive in Glendale about the first of the year.

THE TRAGIC DEATH OF A LITTLE BOY

Criminal Act of Citrus Fruit Fuming in Glendale Causes End of Little Howard Matthieson

Tragic grief has invaded the home of Mr. and Mrs. F. J. Matthieson, of 721 East Windsor road, through a distressing accident which brought sudden death to little Howard, their only son, aged three years and four months, between twelve and one o'clock yesterday.

Howard and two playmates, Henry Nelson Mabry, aged six, and William Larr, aged three, discovered what they considered a fine tent in the yard next door. Being in that stage of childhood when the faculty of imagination is much stronger than any other, the tent immediately suggested a soldier game or playing "Indians."

The tent was one placed over a citrus tree by employes of the county horticultural department, and was filled with deadly cyanide fumes. Little Howard crawled under it. When Henry Mabry attempted to follow, the "big dark choked him;" perhaps a dim memory of his mother's injunction to keep away from the men at work stirred within him, for he made an effort to pull Howard out.

Half an hour later Henry's mother's colored maid found him unconscious beside the tent. After several hours' hard work he was restored to consciousness. He is out of danger.

Meanwhile Howard's sister Dorothy, aged five, returned from school and looked about for Howard. When she lifted a corner of the tent, she was knocked down by the strength of the fumes, but recovered and ran to her mother with the story that Howard lay in the tent and did not answer when she called.

Dr. H. R. Boyer was called and the firemen rushed the pulmotor to the scene, but all efforts to bring little Howard back were vain.

The tragic, needless death of this little child has stirred the entire neighborhood. Men conversant with the citrus industry say that the fumigating with this deadly gas in Glendale, a city of homes and of little children, is a criminal, damnable thing. Moreover, the work is carried on by ordinary laborers not versed in chemistry, men who are not capable of taking proper precautions, even if there were enough of them to guard the tents as they should be guarded.

Many people have no idea of the great danger of the prussic acid gas generated in these fumigating tents. And even where this knowledge prevails, no one can be sure that some little child too small to remember mother's warnings (as Howard Matthieson was), may not eagerly rush into one of these tents and meet instant death.

Feeling is so strong in the Matthieson neighborhood that it is certain some action to prevent further danger will be taken.

Funeral services for Howard Matthieson will be held on Friday from the Jewel City Undertaking parlors and interment will be made in Forest Lawn cemetery.

ATTEND CONFERENCE

ADVENTIST CONFERENCE WORKERS ARE IN SESSION AT LODI

Messrs. B. M. Emerson, J. W. Christian, J. A. Stevens, W. W. Ruble, W. S .Martin and W C. Raley and Miss Violet Bell of the Pacific Union Conference of Seventh-Day Adventists of Glendale are attending a meeting of the auditors, bookkeepers and treasurers of Pacific Union Conferences being held at Lodi. C. E. Kimlin, business manager of the Glendale sanitarium, is also in attendance.

Board of Freeholders

The members of the board of freeholders met at the city hall last evening to organize and outline plans for the drafting of the freeholders' charter for Glendale. The meeting was called to order by F. H. Vesper, acting chairman, who stated the purpose of the meeting.

Bert Woodward was elected chairman, and Dr. Jessie A. Russell was elected secretary of the committee. A committee of three composed of W. R. Phelon, G. B. Woodberry and the secretary was appointed to secure copies of charters from other cities and such other data as might be available for the use of the committee.

The committee unanimously decided to invite the citizens of Glendale to make any suggestion relative to any phase of the charter to the committee for its consideration. It is hoped that such suggestions will be made in writing wherever possible. The next meeting of the board will be held at the city hall next Tuesday evening at 7:45 sharp.

Stork Arrives

The stork is as perverse as some human beings ever thought of being. Here Mr. and Mrs. G. G. Merrick, of 209 East Palmer avenue, expressly and particularly asked him to bring them a girl baby; and they were so sure that he would accede to this modest request that they had their little daughter's name ready, and everything.

Comes the great solemn bird this morning to deliver the Merricks order, and what does he do but leave a fine, lusty nine-pound boy! "Take it, or leave it," quoth the stork, laconically, just like that.

And it was such a handsome little fellow that the Merricks took it, of course, their disappointment fading like the morning mist before the summer sun, when they beheld the baby's loveliness.

"After all," said they, "we'll have the fun now of finding another name."

Work is being commenced today on remodeling the Brand boulevard branch of the Los Angeles Trust and Savings Bank.

TOMORROW THE TIME TO REJOICE

TO GIVE SPECIAL THANKS AS A NATION UNTO GOD

ORIGIN OF THE DAY

THE EVENING NEWS GIVES AN INTERESTING HISTORY OF THANKSGIVING

Men with a taste for research have delved into musty tomes and traced the history of Thanksgiving Day far back into pagan times. They tell us that originally it had to do with the worship of Ceres, the goddess of Plenty, and was celebrated after the harvest was garnered, even as it is celebrated today at the close of the harvest season. Then they trace it on down through the ages to the days when merrie England had the great harvest festivals.

We in America are satisfied to trace it back to the inspiration of the thankful hearts of our Pilgrim forefathers. They had suffered the extreme hardships of pioneering in that early day; they had lost many of their number through sickness; their crops failed the first year; they suffered much at the hands of of the fierce, un-understanding Indians. Yet they refused when a ship came with provisions to go back to the physical comforts awaiting them in England; they planted corn on the graves of their dead that the Indians might not mark their diminished numbers; but when they finally succeeded in raising a crop they gave thanks to the Giver of all good and made a feast of thanksgiving to which they invited the Indians.

In the somewhat crude but expressive parlance in vogue in our day (which these proper old Pilgrims would not recognize as Eng-

Shot at Intruder

About two o'clock this morning the police department received a call from Mr. Bishop of 136 North Cedar St. to send an officer, as he believed there was someone in his house. Officers Browne, Herbert and Hutchinson responded and found that the rear door was open. Mr. Bishop is positive that he left this locked. A noise was then heard in the kitchen and the officers shot through the partition. The prowler was next seen running down an alley and shots were again fired. They failed to hit the man, however, and he escaped. Nothing was missing from the house.

A WORTHWHILE ORGANIZATION

(Continued from Page 1)

ing good. The plan of self-government in this home she characterized as interesting and successful.

The appeal for all of these—the children in the hospital, the friendless grown people there, the old women and especially the old men at the county farm, the children in Juvenile Hall (none of whom are delinquents), and the girls at El Retire—her appeal for all of these is for entertainment to enliven their bleak, colorless lives. Books and magazines for the tubercular sanitarium; a box of bits of bright-colored cloth, colored silk thread, needles and a tiny doll is joy unspeakable to a sick child in the county hospital; a postcard sent to a patient in the hospital, scores of whom are without friends outside; a phonograph record, or a bright program of songs now and then—these are among the gifts within the power of many of us, and they are gifts that would mean more than we, who have so much, can realize.

The musical program was announced by Mrs. Mabel Franklin Ocker, second vice-president. She introduced William Steffen as "the John McCormack of the Pacific coast."

Mr. Steffen has a lyric tenor of much beauty and his selections comprised three groups of beautiful songs. The first group included Gounod's "Ave Maria," Rudolph's Song from La Boheme, and Puccini's "Che je li da Manina." The group of Irish songs included "My Lagan Lass, "Believe Me If All Those Endearing Young Charms" and "Mollie Bawn;" the third group comprised Metcalf's "Absent," Lisa Lehmann's "O Moon of My Delight," and "For You Alone, Dear," by Giehl. Mr. Steffen was enthusiastically encored, and graciously responded with Cadman's "At Dawn."

The piano accompaniments were played with rare sympathy by Raymond Baldwin, a finished pianist whose solo numbers were played with excellent taste and exquisite appreciation of the thought of the composer. His selections were Smith's "A Mountain Stream," and, as an encore, a Chopin prelude.

Mrs. L. W. Sinclair, chairman of hospitality, asked each alternate row of ladies to turn their chairs so as to face the row sitting behind them, and then requested each lady to shake hands with her nearest neighbor and introduce herself if they were not already acquaintances. After this unique get-acquainted plan had been adopted, refreshments were served by the hospitality committee.

The decoration committee, headed by Mrs. Mabel Franklin Ocker, had chosen a very effective arrangement of dahlias and potted plants for the adornment of the hall, autumnal hues that harmonized beautifully with the prevailing tints in the hangings and furniture of the room.

The club membership approximates 500 members—progressive, representative women of Glendale. They are now working earnestly for a club house of their own. They own the site, two beautiful lots on Brand boulevard at Lexington, and their club house will be a building that is an asset to the city of Glendale.

At Pasadena

The Woman's Relief corps of Pasadena is entertaining department officers today with a luncheon and a program following.

Glendale W. R. C. ladies in the party are Department Chaplain Mrs. Priscilla Houdyshel, one of the honor guests; President Mary Milligan, Press Correspondent Julina Hayes, Patriotic Instructor Mrs. Patterson and Mrs. Mary Pyle.

Thanksgiving Day

THIS Thanksgiving eclipses all. Of all the people of the earth the Americans appear to be the favored. While famine has stalked through other lands, plenty has ruled in America. Never was there a time in our history when collections had to be taken up in other countries to relieve distress in the United States. Through immigrants helping the folks they left behind and through general benevolence, it has always been a case of aid going out from here.

Today, while there are calls for relief from millions in other countries, the Americans, as usual, are in the midst of plenty. While America is rapidly recovering from abnormal conditions of the war, internal and racial strife still beset many a European land. And there is no better way for Americans to show thankfulness for what they have received than to share with those who are in distress.

Observance of the last Thursday in November as "a day of thanksgiving and prayer" is dependent in no degree on the customary proclamation by the president, but we should be sensible of a loss were an executive to omit its issuance. This exclusively American day is, indeed, as firmly fixed as is Christmas. But it is good to have the chief administrative officer of the nation review, if ever so briefly, the blessings which have been so abundantly bestowed upon us. In the president's words:

"We have abundant cause for thanksgiving. The lesions of the war are rapidly healing. The great army of freemen which America sent to the defense of liberty, returning to the grateful embrace of the nation, has resumed the useful pursuits of peace, as simply and as promptly as it rushed to arms in obedience to the country's call. . . . In plenty, security and peace, our virtuous and self-reliant people face the future, its duties and its opportunities. May we have vision to discern our duties; the strength, both of hand and resolve, to discharge them; and the soundness of heart to realize that the truest opportunities are those of service. In spirit, then, of devotion and stewardship we should give thanks in our hearts, and dedicate ourselves to the service of God's merciful and loving purpose to His children.

"America is going forward and is thankful accordingly."

Family Dinner

Mr. and Mrs. S. Houdyshel will celebrate Thanksgiving Day in the good old-fashioned way with a family dinner that will bring together all the members of the family.

From Los Angeles will come their son, Professor C. E. Houdyshel, and his family, and H. D. Houdyshel, the other son, who resides in Newport, will also come to take part in the festivities.

No Paper Tomorrow

No paper will be published from the Evening News office tomorrow, as Thanksgiving Day is one of the six holidays in the year observed by the Evening News. The other days are Christmas, New Year's, Decoration Day, Fourth of July and Labor Day.

The Vanished Cistern

Grandmother had a big cistern she was proud of. Most likely too, she made her own soft soap of pure wood lye and animal fat without borax or resin. And Grandmother was famous for her beautiful linens; her "wash" was always a work of art.

It is true we can't improve much on Grandmother's methods, so we are duplicating them in our modern laundry in a scientific way.

We duplicate not only the banished cistern, the wind driven clothes-reel and the sunshine, but we use a soap that even Grandmother herself would admit to be better than her best.

It's this combination of old-fashioned standards with modern scientific methods that enables us to give your family linens the snowy whiteness that Grandmother used to glory in.

Telephone and we'll call for your weekly bundle.

Lower Death Rate

That the death rate in the United States should have been considerably lower last year than in 1918, the year of the influenza epidemic, was only to be expected. One was hardly prepared, however, for so marked a decline as is disclosed in vital statistics just issued at Washington. As compared to eighteen deaths per 1000 of population in 1918, the mortality rate last year was 12.9 per 1000, the lowest on record.

This reduction may have been due to factors independent of human control, but not improbably can be attributed in part to the greater attention which people are now paying than they formerly did to the rules of hygiene and sanitation. Instruction in these subjects was given all of the 4,000,000 men who served in the army. Determined not to undergo again the experience of previous wars, in which more soldiers were stricken by disease than by the enemy's bullets, the military authorities insisted on scrupulous obedience to the laws for the preservation of health. Is it not possible that the lessons which these 4,000,000 men received have already had their effect in cutting down the death rate from disease?

The figures show that 9.8 per cent of the deaths last year were caused by tuberculosis. This is the more to be deplored because tuberculosis is to a considerable extent a preventable disease. Fewer persons would contract it if there were greater supervision by public health agencies, with a view to detecting cases of the disease and taking steps to prevent the patients from infecting others. It is apparent that these sufferers, many of whom are unaware that they have tuberculosis, are a formidable menace to the remainder of the community, and that only by extending public supervision and strengthening the public health agencies can tuberculosis be reduced from a major to a minor factor in our mortality statistics.

Uncle Johnny's Recipe

Most folks will listen most respectfully to "Uncle Johnny" Shell, 132 years old, of Greasy Creek, Leslie county, Ky., the world's oldest man, when he tells the public health authorities in their coming convention in Chicago how he does it. "Fresh air, raw meat and white whisky" is the prescription "Uncle Johnny" has already given for keeping right on living after you are 132.

That is a way of life that it's safe to say wouldn't appeal to most of us. No, no, Uncle Johnny. We prefer 60 or 70 years with pie, and fried chicken, and hot biscuits and corn on the cob and then another helping of pie, to twice that span on fresh air, raw meat and white whisky.

If we can just cheat the grim reaper for a year or so beyond the allotted fourscore and ten, nobody is going to hear us complain. Johnny can say he has lived 132 years. But, in sweet remembrance of the pie and other things, we shall declare we've lived a little over 70—we hope.

A man may enjoy running into debt, but he doesn't show any glee over being dragged out by the sheriff.

Dr. Crist then indicated that while the whole world was the legitimate field for the church's enterprise, the greater obligation rested upon it in the meeting of the needs of the home field. Among other passages quoted was this: "He that provideth not for his own, especially those of his own home, is worse than an infidel and hath denied the faith."

Dr. Crist presented in turn the various enterprises of the Women's Home Missionary society of the Southern California conference. Among these are the following: The David and Margaret orphanage at La Verne, with seventy-five children in all, thirty-nine boys and thirty-six girls. "This institution," said he, "is refusing three to every one it receives because of lack of room and equipment."

Rev. Crist presented some facts in reference to the Methodist hospital that were exceedingly interesting: 3135 patients were treated this past year. Five hundred and eight births took place within its walls, and there were 1619 surgical cases.

The speaker presented the work of the San Pedro immigrant home, the Alaskan orphanage, the Yuma Indians, and various phases of the deaconess work. All of these enterprises are being assisted by the ladies and membership generally of the local church.

Plans for Palestine

(By United Press)

BUFFALO, N. Y., Nov. 24.—To populate Palestine speedily with a preponderating body of self-supporting Jews, who will develop into a homogeneous people, ultimately becoming a self-supporting commonwealth, is the problem to be dealt with by the 23d annual convention of the Zionist Organization of America, beginning here tomorrow. The accredited delegates number 350. Practically the whole of this task must be carried out by the Jews of this country, according to the Zionist organization of America.

The war and its aftermath has almost completely impoverished European Jewry, and the depreciation of the money of such countries as Russia, Poland, Austria and Roumania has reduced the remaining wealth to an almost irreducible minimum.

All that European Jewry can contribute to the development of Palestine, is the human material in the form of the hundreds of thousands of refugees now congesting every port from Danzig to Constantinople, and even along the Pacific, awaiting opportunity to reach Palestine. While there is a small percentage of these refugees who have managed to escape with considerable capital, the bulk of it is destined to be farmhands and day laborers.

The Zionists declare that most of the money and constructive advice as well as the technical skill required for Palestine's development must come from the Jews of this country.

Two viewpoints have developed in connection with the practical means that will be necessary in order to secure the maximum participation of all Jews and even of a large number of non-Jews. One view favors the creating of a "Palestine Foundation" fund, which shall include investments, quasi-investments and outright gifts, and all who desire to participate shall do so by acquiring stock in this foundation, the majority control of which is to be held by the world-Zionist organization.

The other viewpoint is based on the assumption that the action of the Peace Conference last May in officially recognizing the Zionist claim to Palestine ended the political phase of the movement. It contends that the machinery of the organization should now be remodeled to permit the participation of those elements in American Jewry who have ignored its political phase. The supporters of this viewpoint regard the organization as committed to the control by Jews for the Jewish people, of Palestinian undertakings, but this control they argue must be held by individuals who will instill confidence in the investors. They favor the organization of separate corporations for the financing and control of public enterprises in Palestine, with a board of trustees, not limited to Zionists, holding founders' shares in each of these corporations, which are to be distinct and not interlocking operations. They are opposed to lumping donation and investment into one fund. Funds for such undertakings in Palestine as cannot produce financial returns, they contend should be raised by outright gifts.

Whichever viewpoint prevails, the Zionists are agreed that the convention will have to remodel the machinery of the organization so that it can concentrate on the development of Palestine.

Etching Name Plate

The car owner may occasionally desire to put his name or initials on some metal place or surface. This is best done by etching and if it is iron or steel, mix a half ounce of nitric acid and an ounce of muriatic acid. Shake these well, when they are ready to use. Cover the place to be etched with beeswax melted and when this is cold write what is desired in the wax, clear down to the metal, using a sharp instrument for the purpose. Now apply the acid mixture with a feather, being careful to fill each letter. Let the acid stand for 10 minutes and pour water in it. This stops the etching and wax may be removed.

American women paid $750,000,000 for rouge, lip sticks and powder and perfume during 1919, according to government war tax returns.

A new "Congressman" is Alice Robertson, who runs a restaurant in Muskogee, Oklahoma. She did her campaigning while her customers ate their meals.

Health of Children

(By United Press)

RANGOON, Burma. (By Mail)—Medical examinations for school children, to determine the connection between ill-health and poor lessons, is being undertaken by American Baptist missionary teachers working among the Karen people of the Southern Shan states.

The opening of schools at Toungoo swamped accommodations, and Rev. E. N. Harris, head of the school, discovered that there was much more chronic illess among the newcomers than those who had been in the school previously. One result of this has been the employment of a trained nurse, and Dr. A. H. Henderson, medical missionary, following an examination of most of the pupils, together with Dr. Harris are planning a health campaign to raise the present health standards.

The extension of medical work and provision for additional schools are hoped for from the $100,000,000 New World Movement fund which the Northern Baptists of America are raising.

India Is Growing

CHICAGO.—Rickshaws and coolies are rapidly being replaced by limousines and liveried chauffeurs in India. Industrial growth of the country in the last two years has brought about a remarkable transformation in most of the commercial centers, according to information to Chicago industrial bureaus.

Folks who take the joy out of life for others are usually not able to add any to their own.

The biggest mistake any family can make is to keep fresh air out of the home in order to save fuel.

EDITORIAL COMMENT

VOTERS ENDORSE INDUSTRIAL COURT

Now that the more strenuous features of the recent political campaign have been passed upon by the voters it may be in order to call attention to one that has not received a great deal of attention outside of Kansas, where the idea of an industrial court had its inception.

It will be recalled that the radical miners of Kansas opposed the labor court law with great unction, and Governor Allen, the author of the idea as it is effective in Kansas, was made the subject of the most bitter opposition of the elements of labor who could see nothing except the strike for settlement of labor differences.

The people of Kansas, by the largest majority in history, have re-elected Governor Allen and placed their approval on the industrial court's law. It is significant that an analysis of the vote reveals the belief that a large percentage of the labor vote was given to Governor Allen, with the exception of the more radical elements.

The fine thing about the Kansas law is that it is working effectively, both in the interests of employers and employes, despite the contention by some labor leaders that it would only "enslave" the laboring man and make him subject to the autocracy of the courts. No such result has occurred, and it is not likely to occur.

If the industrial court idea works well in Kansas, what is to prevent every other state from adopting the principle? The time and money which is now lost in strikes and lockouts would be saved, and employers, employes and the public would be the gainers in every way. The rights of no interests are adversely affected by the decisions of an impartial tribunal, and if errors were made the way would be opened for reconsideration.

The coal strike in the bituminous districts one year ago brought to the front the rights of the public to participate in any labor disputes affecting essential industry, and the same principle was recognized in the railroad controversy. It will be a splendid condition when labor disputes are considered from a judicial standpoint and the rights of all parties interested respected.

WOMAN'S PARTY DISCOUNTED

The proposal of a number of militant suffragists for the organization of a strictly woman's party did not receive any encouragement from the women who voted at the late general election. It must be realized that a division of the voters on lines of sex would work injury to the cause of woman suffrage.

The more thoughtful advocates of the cause of suffrage, now that women everywhere have the vote by national amendment, realize that they are on trial before the nation, and in fact the world, and they are not expected to endorse any movement that will weaken their cause through the loss of support and respect of male voters.

The women will have one representative of their sex in the next house of representatives—Miss Alice Robertson of Oklahoma. She is not the first woman to have that honor as the case of Miss Jeanette Rankin will be recalled. Miss Robertson is 65 and admits it, and she promises that she will not do anything that will discredit her sex.

When women have demonstrated by actual practice that they are capable of deciding on state and national issues (although it is admitted that they are), they will find that they will be honored with a reasonable share of the public offices, and they will be placed there by the votes of men as much as by those of their own sex.

The organization of a strictly woman's party would only serve to arouse antagonisms that would work to the injury of suffrage, and women in many cases would defeat their own purpose. It will probably be found in the future, as it was at the late election, that women will align themselves with existing parties, or vote independently in a way that will make their influence count for most in the nation.

Trotzky says: "I know danger is coming. I realize the possibility of a severe winter, but though three-fourths of the population die of hunger and cold, the remainder will survive to carry through to victory, world revolution."

A perfect substitute for radium has been produced through a chemical process which purifies mesothorium. Mesothorium is a by-product of gas-lamp mantles and is found in monazite ore.

A Lynn, Massachusetts, cook insisted that her employer transport her to church in a car every Sunday morning. He did so, but one morning an accident befell, wherein the cook was injured, and she now sues him for $10,000.

Pitt and Penn to Clash

(By United Press)

PITTSBURG, Nov. 24.—When Penn State and Pitt clash tomorrow, they will be playing not only for the football championship of Pennsylvania, but the winner will claim the title of eastern champion. Penn State has been claiming the honor for the past fortnight and judging by comparative scores, Pitt shapes up as a logical contender for the same laurels.

Already the hotels are jammed with football enthusiasts, here for the big game. Nearly all of Forbes Field's 30,000 seats are sold and "SRO" will be at a premium when the teams line up for the kick-off.

With teamwork perfect, it looks like individual stars may decide the result. Remembering Tom Davies' sensational 90-yard dash from kick-off in the Pitt-Penn game, State's watchword will be "Look out for Davies," while Pop Warner has drilled Pitt to "clear the way for Tommy." With Harman at left tackle and quarterback Tommy Holleran in the game Pitt's offensive should be at its best.

Penn State's stars will be watched closely for the feared State forward passes and brilliant runs. Hugo Bezdek's boys have a disconcerting way of pulling off long runs that keep their opponents taut every minute of play,—witness right halfback Charlie Way's 57 yards against Nebraska and left halfback Haines 80 yards in the Penn game. Captain Hess at right guard and Killinger at quarter are the respective pivots of a steilar defense and offense. Betting odds are about even, all conceding a close score.

Radium valued at $13,000 was thrown into a wash basin by a patient in a Utica, New York, hospital who felt annoyed by its heat. It was later found in a sewer pipe near the hospital.

Last year the United States produced $667,204,000 worth of rubber products.

Found Wild Buffalo

(By United Press)

EDNONTON, Alta, Nov. 23.—The phantom herd of the North has been found. For years a tradition of a great herd of buffalo somewhere in the Mackenzie river basin has lingered among the fur posts. Indians told of sighting it blackening the wild pastures of remote valleys. No white men had seen it. But trappers had chanced upon its trampled trails and ten years ago, two mighty bulls, that had straggled far from their fellows, were killed.

F. H. Kitto, engineer of the Natural Resources Branch of the Department of the Interior, who has returned from five months of explorations in the Mackenzie country, reports that he saw the herd and estimates it at 1000 head. He received reports, he says, from Indians that another herd equally as large exists farther north.

Canada has the largest bison herd in the world in the national park at Wainwright, Alta. On Jan. 1, it numbered 4335. With the exception of ninety animals that still live in untamed freedom in the northern fastnesses of Yellowstone Park, the Mackenzie river herds are the only wild buffalo left on the continent.

Hectic Pajamas

(By United Press)

LONDON, Nov. 10. (By Mail.)—The white-spatted and monocled man who yesteryear gave color and excitement to the West End of London has vanished.

There in an air of languor in the quiet grays and chaste browns of the suits worn by London's young men today. Mostly coats wrinkle and trousers sag. Handkerchiefs and socks, once so passionately lurid, have sunk into somnolent shades. The erstwhile dazzle dude is now but a blur on the landscape—but only during the day.

At night the dull chrysalis turns into a brilliant butterfly. Inquiries made at the best known London hosiers elicited the information that while the bright-hued handkerchiefs, socks and ties are a drug on the market, it is exactly the reverse in the matter of pajamas.

The more brilliant the pajamas the bigger the sale, and hosiers find it difficult to keep pace with the violence of hue demanded in masculine night attire.

The white day spats are forgotten in the hectic quest for purple bedsocks.

Alarm Clocks

Persons who doubt the existence of an English sense of humor should consider the following: Whether an alarm clock is a household requisite or an article of furniture caused a lengthy discussion in a British court recently, according to the Manchester Guardian. If it were found to be a "household requisite," a dealer charged with making excess profits could be convicted under the profiteering law; if it were found to be merely an article of furniture, the profiteer would go free. After much learned debate, it was decided that inasmuch as a hot water bottle, which puts one to sleep, was classed as a household requisite falling under the provisions of the profiteering act, an alarm clock, which rouses one from sleep, should logically be classed in the same category. And "the case was remitted to the magistrate to convict."

TOMORROW THE TIME TO REJOICE

(Continued from Page 1)

lish if they heard us say it), they had many a lemon handed them; but they took all the lemons and made lemonade out of them. And good, sweet lemonade it was, too. They were the original optimists. They needed no New Thought or "suggestion" or mental science or other prop to lean upon when trials and hardships and misfortune were their portion. Their sturdy faith in God, their firm conviction that all things work together for good to him that loves God and tries to do His will developed in them a manliness and dignity of character that has been the admiration of men of every clime and nation since their day.

The Pilgrims moored their bark on the stern and rockbound coast of New England and laboriously hewed down the great trees of the forest to make homes (rude, comfortless homes compared with their homes in England), in order that they might in this new land enjoy freedom of religion. They held that church and state should be separated. Any respectable man in Plymouth could be a free man and had a vote, whether he was a member of the congregation or not. The Puritans of the Massachusetts Bay colony, Salem and Boston, held vigorously that only members of the church had the rights of free men and the power to vote. For two great principles, then, we are indebted to our Pilgrim fathers and mothers: the principle that every man has the right to worship God in his own way, and is not to be discriminated against for it; and the great principle that gratitude is a debt we owe to the Father of all of us; and the recognition of this principle is the inspiration of the beautiful festival of Thanksgiving, when we set aside one day in the year as the day of days to give thanks unto the Lord for all His good gifts.
